Participate as a group. This is an excellent way to learn best practices together and boost talent at all levels. Each webinar includes a set of Post Webinar Discussion Questions to stimulate your conversation. It's like professional development in a box—add talent and stir.

Ask questions in advance and during the webinar. You may send questions when you register, by email to Cal-ICMA@DonMaruska.com for the moderator, or via the Question tool during the live webinar. Have your tough questions asked anonymously.

Access presentations, resource materials, and digital recordings. You'll find these at the "Agendas & Archives" tab of www.cal-icma.org/coaching. Subscribe to the free email list for webinar and program updates at www.cal-icma.org/coachingList.

Can't make the scheduled time? The new digital recordings give you mp4 format integrated videos for viewing the session full screen on your own or with your team.
